

▶ **Ericka L. Abrams, MPH**

Community & Data Core Manager, IMPACT

- ▶ Ericka is the Project Manager for the IMPACT Study, and manages both the community and data aspects of this multi-level family and school-based intervention. She helps maintain relationships with the public schools, coordinates BMI/BP screenings in participating charter schools, conducts outreach to the community, and develops environmental measures that will describe how external factors impact the health and well-being of the study population.
